

Metro.ISO

PR - 25 words

Metro.ISO is an Insulation Measuring instrument to test Insulation-Resistance, Capacitance, AC / DC Voltage, Cable test, Selectable measuring lead pairs.

PR - 50 words

Metro.ISO is a next generation Insulation Measuring instrument designed and manufactured in Europe with the modern technology available in 2014. It can test Insulation-Resistance, Capacitance, AC / DC Voltage, Cable test, Selectable measuring lead pairs.

PR - 100 words

Metro.ISO is a next generation Insulation Measuring instrument designed and manufactured in Europe with the technology available in 2014. It tests Insulation-Resistance, Capacitance, AC / DC Voltage, Cable test, Selectable measuring lead pairs. This is a modern and well prepared instrument is ideal for engineers working in electrical and telecom installations, at factory, the central office or the field.

Metro.ISO is compliant with IEC61010 CATIII 600V
